Tiago Costa

Tiago Costa is a Cloud Architect and Advisor and International speaker for the Microsoft Cloud. For the past years he has been architecting and developing solutions using Microsoft Azure for some of the fortune 500 companies. Due to his strong real-world experience, Tiago regularly teaches Microsoft Azure classes around the world.

Microsoft Azure MVP since 2016 for his community efforts in promoting and sharing knowledge with the community. Tiago has 50+ Microsoft Certifications including MCT – Microsoft Certified Trainer and got awarded as MCT Regional Lead since 2016 every year. He's the founder of the Azure Portugal User Group. He loves diving into new technologies and to share his experience at conferences and training classes, but what excites him about his work is to help others exploring new frontiers in technology impacting their life's, making the world a better place for everyone. His free time is spent with his family in the sunny Lisbon, Portugal building cool and geek projects.

Updates from Meetup

NEW MICROSOFT GLOBAL PAGE

www.meetup.com/pro/microsoftglobal

Welcome to the Microsoft global network!

Explore and discover new technologies and tools. Connect with developers and Microsoft experts from across the globe. Microsoft's mission is to empower every individual to achieve more. Let's see what you can achieve.

Browse Microsoft's Global Network

Microsoft has several Meetup Networks that explore different topics. Explore the communities below to learn more and find a local group in your area.

Azure Data Tech Groups

Azure Data Tech Groups is a worldwide community of data professionals that offers you a unique opportunity to enhance your skills and network with others with similar interests. Our user groups from around the world host free training and education on topics from the full spectrum for the Microsoft Data Platform, such as SQL Server, Azure SQL, CosmosDB, professional development, Diversity and Inclusion, and more. Join the Microsoft Azure Data Community to connect, learn and develop your skills, and grow in your careers.

[Explore the network](#)

Azure Tech Groups

Azure Tech Groups is a global network of local user groups who partner with Microsoft to empower users to achieve more. Groups within the program host Meetup events where members can connect, learn, and engage one another on topics related to Azure, Visual Studio, and other Microsoft technologies.

[Explore the network](#)

Microsoft Developer Events

Microsoft Developer Events hosts events covering a variety of products, topics, and the latest technology. Discover best practices, learn about the latest updates and features directly from the Microsoft product teams and architects.

[Explore the network](#)

Microsoft Reactor

Whether you're building your career or the next great idea, Microsoft Reactor connects you with the devs and startups that share your goals. Learn new skills, meet new peers, and find career mentorship. Attend expert panels and dive into what inspires you with the latest tech. Virtual events are running around the clock so join us anytime, anywhere!

Details

Calling all organizers! You're invited to workshop with fellow Meetup group organizers, share tips, and learn the best practices for increasing attendance and member engagement at your events.

We'll start off in the main meeting room to allow time for everyone to join and to go over guidelines, rules, instructions, and topics. Then, we'll split into the designated breakout rooms for smaller group discussions. There will be five simultaneous breakout sessions, each facilitated by a Meetup team member.

Attendance for this workshop will be limited. We will give priority to organizers who haven't joined a previous workshop.

Please answer the questions when you RSVP. By Friday, August 27, 2021 at 4:00 p.m. ET you will hear if you have been selected to join the workshop. If you're not selected this time, don't worry. There will be more organizer workshops in the future.

Please note this event is taking place in Eastern Time (ET).

Agenda:

Introductions (10 mins)

Breakout sessions (50 mins)

Share feedback (15 mins)
